

# Opal Class News

5<sup>th</sup> July 2024

*This week, Opal class have been filming more of their Rotten Roman videos as well as creating their Roman soldiers which are made out of wire. The children have loved making these and they were surprised at how easy it was to create. In English, we have written our letters for our school reports and in Maths, we have been looking at a range of year 5 place value. The children have also experienced their transition days, spending time with their new teacher. According to the responses I have had so far, all the children seemed to be thrilled to have Miss Williams. In Jigsaw, we have learnt about conception. The children were very mature and Scientific but please do not be surprised if one or two additional questions pass your way.*

Key dates coming up:

Friday 12<sup>th</sup> July – School reports out

Friday 19<sup>th</sup> July – Rotten Roman Show

PE is to remain on Fridays until the end of the year.

Coming up next week  
Learning focused

In Maths, we will be looking through areas that we still need to develop which still involves decimals.

In English, we shall be planning and writing our article.

Keep up the reading and the TTRS five times a week.

Way to support at home (home learning)
