

Crystal

Crystal have had a brilliantly busy week this week. We have started to look at Fractions in maths, so far, we have created our own fractions using folds in post it notes to show the equal parts. Next week, we will be looking at ordering and comparing fractions. The children have finished writing their English stories and have done a brilliant job at it! I am really impressed with how they used their resilience, and they have made me very proud. We are now moving on to researching Gods and Goddesses of Ancient Greece ready to write their non-chronological report for their non-fiction writing topic. We have also started to design our clay mythical creature eyes, ready to make out of clay next week, as well as, preparing for our shadow puppet show in science! Lots going on in Crystal Class for the last few weeks of term. I will be sending an information email about our trip soon as we are finalising the details. We are all very excited.

PIC•COLLAGE

Key dates coming up:

27th Feb – Harry Potter trip

Coming up next week
Learning focused

English – Non Chron report writing – Gods and Goddesses

Maths- finding fractions of amounts. For example, what is $\frac{1}{3}$ of 18? And ordering fractions.

Science- creating our shadow puppet shows!

Art- Creating dragon eyes!

Way to support at home (home learning)

Read some Non fiction books at home.

Asking the children to cut items into different fractions such as playdough, making cookies, pizzas etc.

Mathletics – this is always set to the learning we have completed so that the children can consolidate it.
