

# Crystal

This week, we have been recapping addition and subtraction, mental and written methods, we have also been looking at estimation. Estimation can be really tricky but they persevered well. They are really showing off their mathematic skills during this recap week with their problem solving and reasoning (asking them why or how they know this answer.) In English, the children have written some beautiful alternative endings to our class story and used their imagination to create their own land. Very impressive! We have created the shell for our egg box packaging in DT and began putting together our two artists work to create our final piece in art, ready to sell afterschool on the 6<sup>th</sup>! The children worked on adding vowel suffixes er and est in spellings this week (11) and the focus for the next few sessions will be (the order may change depending on children's need):

10	Review adding vowel suffixes -ed, -ing, when doubling the final consonant
11	Review vowel suffixes -er and -est
12	Review -le at the end of words
13	Review -el or -il at the end of words

We were back outside this week for Rugby and it was great to see them starting to play mini games of Tag rugby. They have thrown themselves into learning Rugby and we may even have a few Rugby superstars in the future! We are again, hoping to be outside next week so please come prepared with warm clothes and spare shoes! Have a lovely weekend!

## Coming up next week Learning focused

Looking at instructions and how instructions are written, what is the purpose of instructions?  
Following two step word problems

## Way to support at home (home learning)

Do some baking or an activity where the children need to follow instructions.  
Practice adding and subtracting more than one number!

Key dates/notices coming up:

Reading records in on Fridays and mathematics to be completed

Spelling books to be in on Wednesdays
