

# Crystal

Crystal class have been very busy this week! We have started to read our new story in English, *The invisible* by Tom Percival, in preparation for the children to write their first narrative in year 3!

In maths, we have been looking at how we can count in 50's and 100's until 1000! You could ask the children to recall this learning at home as they were all so brilliant at it. We used our knowledge of our fives and tens to help us. We have also been looking at how to figure out our 3 times tables if we ever get stuck, before looking at our 4's and 8's next week. Its great to see so many children completing TTRS and Mathletics they are doing amazing. I would love to see everyone logging on as much as they can!

Science, we have continued our learning surrounding the skeleton and this week looked at how our joints aid our bodies. In art, the children turned into Quentin Blake and got to learn how he illustrates his books! We were very lucky to have Mrs Heylar help us become great geographers this week using map skills to explore the city of Cardiff and locate some landmarks.

Keep it going Crystals! You are doing amazing.

PIC-COLLAGE

Key dates/notices coming up:

Reading records in on Fridays and mathletics to be completed

Spelling books to be in on Wednesdays

**Coming up next week**  
**Learning focused**

Conjunctions in a sentence

100 more 100 less

3,4,8 times tables

Reading and writing (in words) 3 and 4 digit letters

Ordering numbers from smallest to biggest

**Way to support at home (home learning)**

Discuss ways sentences can be joined together (and, because, as, so etc.. )

Choose a 3 digit number and ask the children to add 100 and take away 100. A challenge would be to take away 100 from a number such as 178 to cross over into the 2 digit boundary or add 100 to a number that would cross into 4 digits.
