

Opal Class News

14th June 2024

Welcome to our final term of Opal class. As you now know, the classes for next year have now been published and this is causing some stir amongst the children. Though they are thrilled to have Miss Williams next year, they approach year 6 with trepidation. We have been discussing the children's worries within class and we shall continue to monitor and reassure the children to ensure their transition to year 6 is as 'smooth' as it can possibly be. During this week, we have started to learn about changes in our body as we grow into adulthood. This week, the focus was on the female reproductive organs. The children embraced the learning with curiosity and maturity. In English, we are preparing for story-writing and in Maths, we are converting measurements from metric to imperial.

Drumming Lesson

Key dates coming up:

Tuesday 25th June – Miss Clark working

1st and 3rd July – Shuffle up day.

PE is to remain on Fridays until the end of the year.

Coming up next week
Learning focused

In Maths, we will be continuing with measurement conversion as this is proving to be tricky.

We are writing our Varmints story

Way to support at home (home learning)
