

Opal Class News

22nd November 2024

It has been a lovely week this week, where we have thought about our anti-bullying week, last week.

In our Maths learning from the last couple of weeks, we have been learning all about division with reasoning and problem-solving as well as recapping and developing our knowledge of angles. This is all in preparation for our shape learning.

In English, we have completely fallen in love with the book, A story like the wind (well, Miss Clark has!) The children have been studying the text, looking at the figurative devices and how the character is portrayed. This has all helped to lead up to writing the story, which is something we are aiming to start next week.

Key dates coming up:

Thursday 28th November – Hidden Figures afternoon.

Tuesday 3rd December – KLB day.

Thursday 5th December – Techniquet Trip

Friday 6th December – Selling our DT projects after school.

Coming up next week
Learning focused

In Maths, we shall be learning about measuring angles which leads into investigating quadrilaterals.

In English, we shall be writing and editing our narrative based on the story 'a story like the wind' By Gill Lewis

We shall be learning about the Earth's rotation.

Continue with reading 5 x a week.
Mathletics and TTRS

Way to support at home (home learning)
