Diamond Class Newsletter

To finish off our electricity learning in Science this week, we investigated whether all materials conduct electricity. We tested items around the classroom and outside and discovered that only metals conducted electricity and all other items were insulators.

In Art we have been putting the finishing touches to our Monet style Bristol painting which looks fantastic (photo will be shared next week). We are going to spend some time next week looking at street art in Bristol and learn about the infamous artist Banksy.

Key dates:

Friday 12th July – Reports going home. Multiplication Check results will be emailed.

Friday 19th July – we will be having a whole school rounders tournament. Children will need to wear PE kit.

Monday 22nd July – Golf session

Coming up next week - Learning	Way to support at home
In Maths next week, we will be applying our learning from Y4 to solve problems.	Read at least 5 times a week. Please ensure reading is recorded in the reading record books each week.
In English, we will be bringing together all of our learning in history to write and information text about Bristol's history.	Mathletics – some children still have several outstanding pieces of home learning on mathletics.
	TTRS or other times tables practise.
