

Topaz News

This week, we have been noticing some of the changes that Spring has brought. The children went for a walk around the school grounds using their senses to see what they could see, hear, smell and feel. Back in the classroom, some children made spring pictures using paint and collage. They explored colour mixing to make their own unique shades of blue and green.

We have also been investigating magnets; using our value of curiosity to ask questions and see what we notice.

After reading the story Michael Recycle, some children made posters to promote looking after the planet by recycling.
